

Sunnyside Lift Station #1

June 2020

The City of Calgary continues to treat, test and deliver high-quality water to Calgarians during the COVID-19 pandemic. While we prioritize the delivery of essential services, our capital construction programs are moving forward where possible. These projects are critical to supporting current and future development. We're working closely with our partners and will continue to monitor the current situation and make adjustments as needed.

Our most important priority remains the health, safety and well-being of our staff and contractors. We continue to put in place new measures and protocols to ensure public health is protected.

Project background

A new lift station is under construction at 200 Memorial Dr. N.W., near the Calgary Curling Club, to alleviate localized flooding in the southeast area of Sunnyside as well as overland flooding on Memorial Drive.

This summer, we are completing both the shallow (ATCO) and deep utility (water & sanitary) tie-ins to the lift station.

Construction impacts

Pathway detour

The west pathway will be closed starting June 29th to July 3rd, in order to install tie-ins to the building. A detour will be in place around the perimeter of the construction fencing in the CPA parking lot (see figure on the next page).

For the safety of all pathway users, cyclists are asked to dismount from their bikes while following the detour, especially around the corners.

While we understand that the closure of the west pathway will be an inconvenience, we thank you for your continued patience and support, as we progress towards the completion of the lift station.

Following the reinstatement of the west pathway, the east pathway will be closed the week of July 6th, with a detour provided along the west pathway.

Temporary parking stall reductions

A portion of the CPA parking lot will continue to be closed off during construction. Parking stalls will be re-opened as the project nears completion this fall.

Please note: All construction is weather dependent. Timelines could change due to weather, underground condition and/or other unexpected circumstances.

Project information

For more details on the project, visit calgary.ca/SunnysideCDI or call 311 for more information.
